KRISHNA RUPARELIA
R E A C T   D E V E L O P E R

Objective:

To secure a React.js developer position where I can leverage my existing skills and knowledge while actively building expertise in Node.js, Express.js, and MongoDB. I aim to contribute to the success of the organization by delivering high-quality code, collaborating effectively with the development team, and continuously expanding my technical abilities in full-stack web development.

Skills:

- Proficient in react.js and related technologies such as Material-UI, babel, typescript, redux, and react native.
- Strong command of HTML, CSS, and JavaScript.
- Familiarity with agile development methodologies.
- Effective team collaboration and problem-solving skills.
- Experience with version control tools like Git.
- Enthusiastic learner, adaptable to changing requirements.

TECHNICAL SKILLS

- Programming Languages: Proficient in JavaScript, HTML, and CSS.
- React Framework: Experienced in working with React.js, a popular JavaScript library for building user interfaces.
- UI Libraries: Skilled in utilizing Material-UI, a widely used UI component library for React, to create visually appealing and responsive designs.
- State Management: Proficient in Redux and Flux, which are state management libraries commonly used in React applications to efficiently manage application state.
- Version Control: Proficient in using Git for version control, allowing for efficient collaboration and code management.
- Package management: experienced in working with npm, the package manager for JavaScript, to install and manage project dependencies.
- Backend framework: experienced in working with node.js, a server-side JavaScript runtime environment, to build scalable and efficient back-end applications.
- Database: Proficient in working with MongoDB, a popular NoSQL database, to store and manage data for web applications.
- Server framework: skilled in working with express.js, a flexible and lightweight web application framework for Node.js, to build robust server-side applications.

Experience:

React.js Developer
Ken42 Pvt Limited, Bangalore; Jul 2022 - Present

- Designed and coded UI components, ensuring highly responsive user interfaces using react concepts.
- Identified web-based user interactions and developed highly responsive user interface components via react concepts.
- Developed and implemented front-end architecture to support user interface concepts with 100% accuracy.
- Performance optimization & features development.
- Built reusable code for future use and optimized web pages for 5 applications for maximum speed and scalability.
- Managed brand consistency throughout the design and maintained & improved the company's website by adding more features and functionality.
- Translated designs and wireframes into high-quality JavaScript code following react.js workflows.
- Debugged application code and optimized front-end architecture, resulting in a 50% improvement in functionality and performance.
- Developed user-facing features using react.js, creating reusable components and front-end libraries.
- Created optimized web pages, balancing functionality and aesthetic design based on user requirements.
- Built reusable code, optimized web pages for speed and scalability, and maintained the company's website.

Front-end Developer
Margosatree Technologies LLP, Mumbai; Jun 2021- Jun 2022

HTML Expertise:

- Immersed myself in the world of HTML, understanding its role as the backbone of web pages.
- Developed skills in writing clean and semantically structured HTML code.
- Ensured accessibility, usability, and compatibility across different browsers and devices.
- Collaborated with designers and content creators to translate their visions into well-structured web pages.
- Gained knowledge of web standards and best practices for creating robust and user-friendly websites.

CSS Styling Mastery:

- Mastered CSS to bring life and aesthetic appeal to web interfaces.
- Acquired expertise in writing efficient and maintainable CSS code.
- Utilized CSS selectors, properties, and techniques for precise control over elements' positioning, typography, color schemes, and animations.
- Worked with modular CSS architectures like BEM (Block, Element, Modifier) and CSS preprocessors like Sass.
- Developed responsive layouts and visually stunning designs.

JavaScript Proficiency:

- Sharpened JavaScript skills to enhance interactivity and functionality.
- Implemented dynamic features and interactive user experiences.
- Wrote efficient and well-structured JavaScript code for form validation, DOM manipulation, and animations.

- Worked with frameworks like jQuery and libraries like React for building robust web applications.
- Emphasized performance optimization to write efficient JavaScript code and minimize browser rendering bottlenecks.

Overall Growth:

- Expanded knowledge of web development best practices and standards.
- Developed problem-solving skills and the ability to work with cross-functional teams.
- Acquired experience in building responsive and user-friendly web interfaces.
- Enhanced understanding of performance optimization and efficient coding practices.

Projects:

- E-commerce website development using React.js.
- Food delivery application creation using React.js.
- Dashboard development using React.js.
- Additional projects available on GIT: https://github.com/krishna2700?tab=repositories

Education:

Bachelor of Commerce (B. Com)
MITHIBAI COLLEGE, Mumbai
Graduated May,2021
